

January 9, 1973

(Start of Belt #2)

would you do that please?

SPEAKER: That is correct. Senator Keyes for what purpose do you rise?

SENATOR KEYES: Mr. President, I think that if we have a couple minutes of time right now, that it would be alright if you or Senator Luedtke, or someone explained what a resolution does, and the functions of it and how it is put in operation, I see this one to Senator Holmquist on Senator Holmquist only had three I believe, or four Senators sign it, I don't think they understand the full meaning and the way we handle resolutions now, I know they do not, even the old Senators don't understand it, neither you or Senator Luedtke, either at this time or very shortly should explain it, because this was bad that this went out with only four Senators on it -

SPEAKER: Senator Keyes the Chair would ask for some clarification, you made a mention to, of Senator Holmquist, I don't understand the -

SENATOR KEYES: On the resolution to Senator Holmquist it only carried the signatures of four Senators, at least the copy of it that I have received. I did not sign the resolution, I should have signed it.

SPEAKER: This was the resolution, the Chair is a little bit deficient in knowledge here because I was not here when that resolution was presented.

SENATOR KEYES: You see whereas Clair W. Holmquist manager and secretary-treasure of the Holmquist Grain, it's all through there and it has Whitney, Johnson and Richendifer signed it, the Resolution #1, see it only has those four, or three men signing it, there four, there is four men signed it. Now this should have been signed by every member of the legislature as this went out, that is my feelings.

SPEAKER: It's the Chair's understanding that the resolution, once it is introduced carries the original signatures and then it lays on the Clerks desk I believe for five days. During that time anyone else wishing to join in that resolution, is to go I think, to the Clerk's office or to the desk here and at that time sign the resolution until of course there is a conclusion at the end of the time period, that signatures may be added to the resolution.

SENATOR KEYES: I believe that it will lay on the Clerk's desk for five days, is that right?

SPEAKER: Hold tight, that is correct.

SENATOR KEYES: And that during that five days the resolution which should have been as a honory to Senator Holmquist only received four signatures. Now I know that that is not the feeling of the Senators, I know the other Senators that would have signed this had they known about this, so I think it is something that should be brought to their attention and all resolutions, somebody has got to explain that to the body. I was caught up on it yesterday.

SPEAKER: The Chair concludes with your deduction too Senator Keyes and I am sure that that is the intent of the body. The Chair would like to recognize Senator Richendifer.

SENATOR RICHENDIFER: Mr. President, I ask for the suspension of the rules on this resolution merely to have it acted on the first week, I realize and know that every Senator in this Chamber would have signed the resolution, but from their vote I thought the message would be transmitted to Mrs. Holmquist as a body. Thank you.
